Strengths in information architecture, systems thinking and research-grounded delivery.

EXPERIENCE

UX / UI Designer

2024 — present

Placewise · Kraków

- End-to-end design across CMS, dashboards, client websites and iOS/Android apps — from discovery through handoff and post-release iteration.
- Owning the core design system: components, variants, tokens and per-client theming.
- UX audits and heuristic evaluations translated into prioritised improvements shipped with product and engineering.

UI Designer — Vet App (PoC)

2024

Virtus Lab · Commercial client

- Six-week proof of concept for a veterinary radiology platform — designed credible, production-ready screens from limited requirements.
- Defined role-specific flows replacing a patchwork of outdated tools; delivered mockups and prototype for client pitch.

UX Designer — Tetrisly

2023 — 2024

Virtus Lab · Commercial Design System

- Co-created a commercial Figma Design System — 300+ accessible, customisable components sold as a subscription product.
- Led documentation and user flows; ran research interviews, maintained the research repository and wrote product-site UX copy.

UX / UI Designer — Maplo (Internship)

2022 — 2023

Virtus Lab

- Contributed to design and launch of a new internal product alongside developers and designers during a paid design internship.
